

# CARRINGTON

Resilient agronomy and color-stable processing quality.

## Benefits

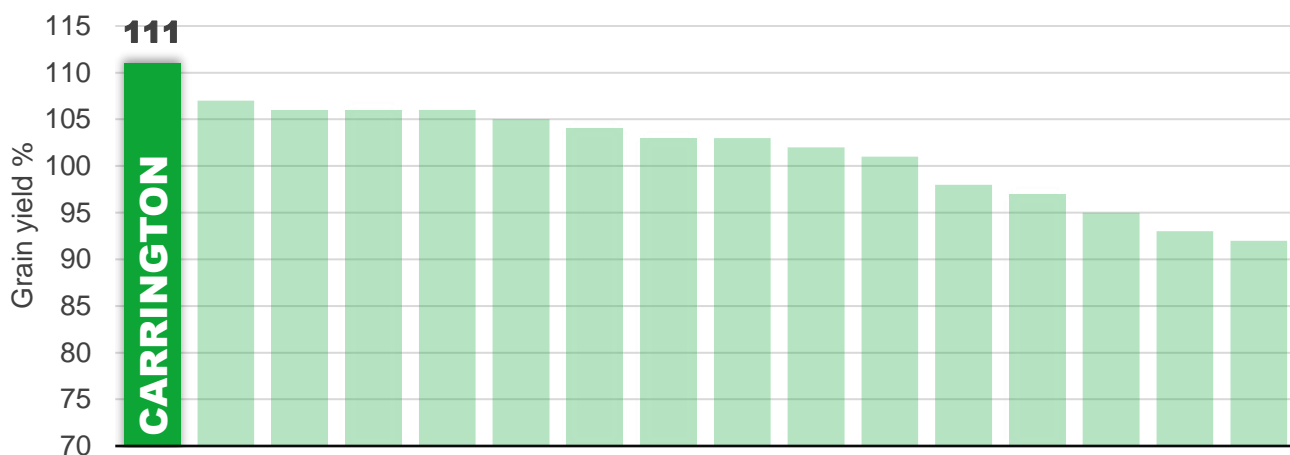

- ✓ Seed color: green
- ✓ Highest green pea seed yield on the PGRO DL (UK).
- ✓ Good resistance to Downy mildew (Peronospora).
- ✓ Good standability → good harvestability.

Classification based on German Federal Plant Variety Office 2024 and own observations.

## CARRINGTON: Very good plant health ensures grain yield.

CARRINGTON is the highest yielding green pea variety, combined with a very high Downy mildew resistance, good standing power and is resistant to Pea wilt.
