

BALANCE

High Returns, Safe Harvest, Strong Resistance.

Benefits

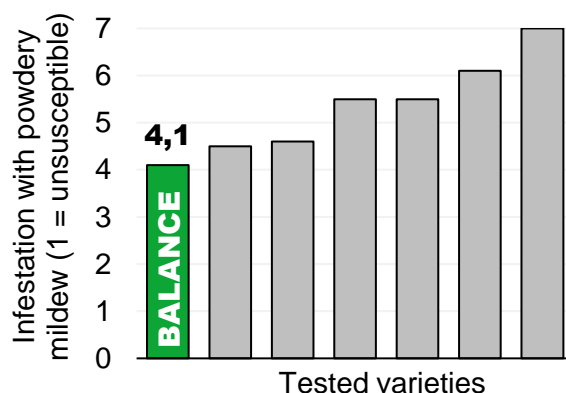

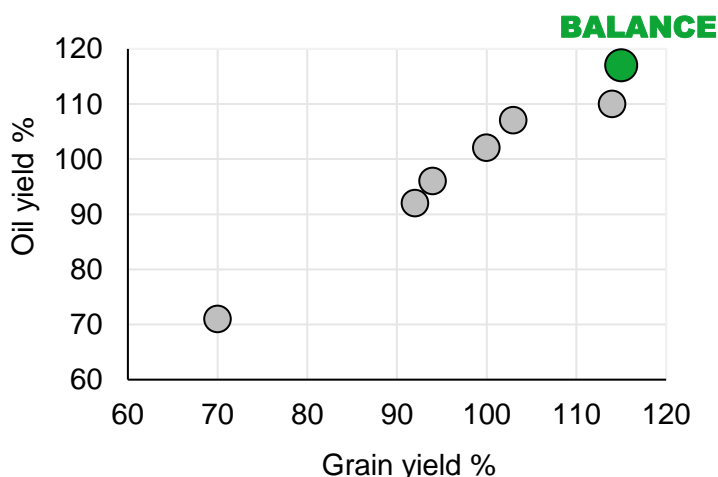

- ✓ High grain- and oilyield potential
- ✓ Short plant type with high standability.
- ✓ Good plant health: improved resistance to powdery mildew.
- ✓ Uniform ripening of grain and straw for easy harvesting.

Classification based on German Federal Plant Variety Office 2024 and own observations.

Attractive combination of yield, quality and health.

In German national trials, BALANCE impressed with its excellent grain and oil yield, good plant health and low lodging tendency.

Source: Germany, Bundessortenamt - Valuation results Ø 2023 & 2024, only 2-year tested varieties shown. rel. 100 % = 20.9 dt/ha (grain yield); 7.9 dt/ha (oil yield), 10 locations each. 2 locations for powdery mildew infestation.
